

SCP Virtual Consent & Online Integrity Form

PERSPECTIVE

Our online classroom is intended to be a space where Stem Career Prep (SCP) Camp participants can ask questions, discuss ideas pertaining to our experiments and/or topics, and learn through teacher demonstrations and discussions. To ensure the integrity of learning, we require each camp participant and guardian to sign the statement below, acknowledging the stated Code of Conduct.

Classroom rules and etiquette apply when communicating with your fellow campers online. Here are some important etiquette rules that must be followed when joining an online meeting:

1. Do your best to arrive on time. If you are late please log in and join in on the conversation when prompted.
2. Use respectful behavior and language.
3. Be respectful when others are talking.
4. Make sure you are fully dressed and the background of your video screen is in an appropriate environment.
5. Be prepared with the necessary materials and information.

My camper has permission to attend the SCP Virtual Summer Camp. We have read, discussed, and understand the online integrity and safety information. I will not hold STEM Career Prep and/or its associates responsible for any inappropriate behavior or safety concerns on the behalf of my camper. My child has permission to be photographed for all STEM Career Prep events to be used for the purpose of recruiting more students and promoting STEM Career Prep programs.

SAFETY

STEM Career Prep is a non-profit organization with the mission to support students' interest in STEM by providing meaningful opportunities for creative exploration, research, and STEM Career exposure and preparation. We desire to bridge curriculum to careers in STEM through aligning K-12 curriculum with higher education coursework and labs, and by providing opportunities of engagement with STEM Professionals.

Through the virtual summer camp, we strive to provide guided instruction of hands on experiments, laboratory analysis, and career exposure. To ensure that our campers have an exceptional experience, we mandate the following:

- o Adult supervision is required at all times. While campers will in most cases be able to work independently, adult supervision is needed during laboratory experiments.
- o Never eat or drink while completing a lab
- o Keep your lab area clean .
- o Never taste lab materials
- o Wash your hands after completing each lab
- o Never share zoom passwords
- o Practice basic safety measures practices

These are just a few reminders of safety protocol. Please remember to exercise caution where needed, and have fun!

Disclaimer: Youth taking this course should not diagnose animal illness for themselves or others and should consult with a veterinarian for all animal medical advice.
